

Our customers
are our best
teachers!

Striving For Excellence!

When it comes to age, humans and organisations show similar signs - a sense of maturity, stability, better decision-making, a perfect blend of experience and risk-taking ability (a well-prepared, enthusiastic next generation with the maturity of the previous one), a set of reliable friends and an evolved vision! All this makes the future very promising. Of course, organisations have a much longer life-span, and its people and associates can keep it young forever!

As we look back, we feel thankful to our loyal customers across the globe. Without their support and cooperation, it would not have been easy for ANU group to be the largest Tungsten Carbide Tooling manufacturer in India today. Their trust on our capabilities gave us the confidence to stay at the forefront of the latest developments in the industry. And our futuristic vision helped us forge strategic joint ventures at the right times, making us the most prominent supplier from India in Europe!

We promise to continue adding value to your business. Thank you again, for your confidence in us!

Cheers!

D.B. Maheshwari
Chairman

45
YEARS OF
EXCELLENCE
ANU Group
1973-2018

We bring to you a synergy of best technology, years of experience coupled with selection of best raw material for high tool life.
